

Hip, Hip, Hooray

Let's Save a Life Today

The Coastal Bend Blood Center knows that our partnering high schools are #1. In fact, we're your biggest fans.

As a sign of our support, the Blood Center will be hosting a workshop geared entirely toward high school blood drives, the in's and out's of what it's all about.

We guarantee there will be something for everyone and hope that you will join us for this extra-special event. This workshop is open to both staff members and students and we strongly encourage you to bring those who you work closely with to this educational opportunity.
